

4 January 1963

MEMORANDUM FOR THE RECORD

25X1X7 1. At the request of Cline I called General Carroll at 1445 today to ask him what his thoughts were with respect to the composition of the American team which would meet with the [REDACTED] 1901/62. I indicated to him that the outgoing to [REDACTED] had indicated the Director's willingness to send a team to [REDACTED] rather than have no joint U.S. [REDACTED] session at all. 25X1X7 25X1X7

2. Carroll indicated considerable perplexity over four points as follows: 25X1X7

a. He thought that since the [REDACTED] had initiated the exercise they should send a team here.

b. Whose was the primary responsibility on the U.S. side? He noted that USIB minutes indicated that it was DIA's. He said that if the Director wanted to reclaim it this did not bother him at all.

c. He was puzzled about what we were getting at in the entire exercise (he obviously knew no more about probable political aspects of the background than I).

25X1X7

d. He was seemingly most concerned about the attitude of the U.S. and [REDACTED] to this joint intelligence exercise; puzzled as to the probable means of passing the completed paper to the [REDACTED]; and puzzled as to the role of this intelligence paper in the joint MAAG-type exercise which our Air people and the [REDACTED] were laying on in support of [REDACTED].

25X1X7

2. I answered those of his questions which I was able, calling upon the text of our yesterday's outgoing cable. I indicated that I would send him a copy with Cline's OK.

3. I came back to the original question on the membership of the U.S. team indicating that the Director wished General Barnes to continue supervision of the paper. He agreed to mull about the scale and nature of the Defense Department membership of the team.
